DETAILED ACTION

Response to Arguments

Applicant's arguments, see pages 12-13 and 15-16, filed 05/04/2009, with respect to independent claims 29 and 42 have been fully considered and are persuasive. The rejections of claims 29-57 have been withdrawn.

Allowable Subject Matter

Claims 29-57 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 29, the prior art of record, either singularly or in combination, does not disclose or suggest the combination of limitations including, the time constant of the laser produced plasma expansion time exceeds the characteristic time constant of the discharge.

Regarding claim 42, the prior art of record, either singularly or in combination, does not disclose or suggest the combination of limitations including, electrodes combined with means for producing a rapid electric discharge in the plasma with a characteristic time constant which is less than the time constant of the laser produced plasma expansion time.

The subsequent dependent claims are allowed based on being dependent off respective independent claims 29 or 42.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2881

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
